The Honeypot Children's Charity invites you to...

Come Dine With Honeypot

for Young Carers' Awareness Day

We only get one chance at childhood. But for young carers, worries and responsibilities mean they have to grow up fast.

The Honeypot Children's Charity is the national charity for young carers aged 5-12. We provide respite breaks to young carers at our houses in Hampshire and Wales - so that young carers have the chance to be children again.

Help us raise awareness of and funds for young carers by holding a dinner party.

This January, help young carers with dinner party to celebrate Young Carers' Awareness Day. Invite your friends and family, show off your cooking skills, and raise money for respite breaks. Get in touch at info@honeypot.org.uk for your free party pack or find out more on our website below.
