

Thank you so much for signing up for Come Dine With Honeypot!

The Honeypot Children's Charity is the national charity for young carers, providing regular respite breaks and on-going outreach support to over 1,000 children aged 5-12. Come Dine With Honeypot is how we're inviting people to bring the topic of young carers directly into their homes, raising awareness of and funds for this important issue.

In this pack, you'll find everything you need to make your event a success:

- **A recipe guide.** This flyer provides you with some suggested recipes for inspiration for your dinner, as well as some handy figures for what you'll be raising money for!
- **Two cue cards,** one welcome speech for the beginning of your dinner, and one thank you speech for the end. You might prefer to do these on your own, but if you're uncomfortable speaking on behalf of Honeypot, these are a great way to get started, with a few jokes just to keep the mood light!
- **Eight conversation cards.** These fun little icebreakers can be left by guests' places at the table, and is a great way to both get guests learning more about each other and thinking about how important childhood is.
- **An invitation** for you to use to invite guests! Should you need more, just let us know!

To make the most of this evening, we suggest you hold it on Young Carers Awareness Day, Thursday 30th January, and set up a JustGiving or other online donation page so you and your guests can easily raise money for Honeypot. We suggest asking each guest for a minimum donation of £10 to supporting young carers – which will pay for a movie night with hot chocolate and popcorn for a group of young carers! You can look at the back of the recipe guide to find out how these donations can help.

If you need any support at all, don't hesitate to contact myself or my colleague Ahrabi Rajkumar on ahrabi@honeypot.org.uk.

Kind regards,

Anthony Cummings
